

Day-2 Lab

(PN:ChatGPT exercise is mandatory)

Lab 1. Use the Database and table from Day 1 lab. Insert 5 records in each table and retrieve data from all tables and display.

ChatGPT Exercise

Generating a normalized table using ChatGPT as a continuation of our earlier ChatGPT scenario.

Put the below statement in the message box and see what ChatGPT says:

I have created a database of emergency contact information. Kindly help me by providing normalized tables with understanding.
